**7. Voter Helpline App (VHA):**

In the fast-paced digital age we live in, mobile applications have become an integral part of our daily lives. These applications cater to a wide range of needs, from the election process. The voter helpline app has witnessed a significant response and popularity from the citizens. This application of the Election Commission of India has revolutionized the way we access and engage with voter-related services. From registration of new electors, correction of demographic details in the electoral roll, the search of names in the electoral roll, and other election-related services, these apps have streamlined the process of connecting ECI with citizens, making it more convenient and efficient for everyone.

With just a few taps on their smartphones, users can now submit the forms and gather various election-related information directly from the ECI portals. These applications offer a user-friendly interface that allows citizens to submit the forms

with a few simple steps. The entire process, from login to registration, can be completed within minutes, eliminating the need for traditional form submission methods.

**Some of the key features of the Voter Helpline App include:**

- Search your name in the electoral roll
- Register or modify your voter registration
- Download your digital photo voter slip
- File complaints

**8. Get election-related news and updates: cVIGIL:**

cVIGIL is a mobile application developed by the Election Commission of India (ECI) to enable citizens to report violations of the Model Code of Conduct (MCC) during elections. The app is available for download on Android and iOS devices. To report a violation, users simply need to open the app, select the type of violation, and provide details of the incident, including location, time, and photographs or videos. The app also allows users to track the progress of their complaints.

The cVIGIL app has been praised for its simplicity, ease of use, authenticity, and user secrecy. It has also been credited with helping to increase the reporting of MCC violations reported during elections.

**Here are some of the features of the cVIGIL app:**

- Allows users to report violations of the Model Code of Conduct (MCC)
- Provides a platform for citizens to participate in the electoral process
- Uses GPS to track the location of the violation
- Allows users to capture the live incidents only
- Tracks the progress of the complaint
- Feature to report the case of MCC violation anonymously

If you see a violation of the MCC, you can use the cVIGIL app to report it. The app is a valuable tool for ensuring that elections are conducted fairly and transparently.

**Here are some of the steps on how to use the cVIGIL app:**

- Download the app from the Google Play Store or the Apple App Store.
- Open the app and create an account.
- Select the type of violation you want to report.
- Provide details of the incident, including location, time, and photographs or videos.
- Submit your complaint.
- The ECI will investigate your complaint and take appropriate action. You can track the progress of your complaint in the app.

**9. SUVIDHA:**

The Suvidha Candidate App is a mobile application developed by the Election Commission of India (ECI) to help candidates with the nomination and permission process during election periods. The app is available on Android platform. To use the Suvidha Candidate App, candidates need to create an account and log in with their credentials. Once logged in, candidates can view the status of their nomination and permission.

The Suvidha Candidate App also provides candidates with a number of other features, including:

- The ability to view the list of permissions required for campaigning.
- The ability to track the status of their permission application.
- The ability to download the permission form and submit it online.
- Track the status of the nomination filed by the candidate.

Here are some of the benefits of using the Suvidha Candidate App:

- It provides candidates with a single platform to track the status of their applications.
- It saves candidates time and provides correct information.
- It helps to promote transparency and accountability in the election process.

## **10. SAKSHAM:**

The Election Commission of India is working towards easing the voter identification and registration process for people with disabilities (PwDs) by offering them customized services. Under a new program, PwDs need to share their essential details with Election Commission via a specially designed app that they can easily download on their Android and iOS phones.

For requesting any electoral services, the first-time voters will have to disclose their name, address, and mobile number along with their State, District & Assembly Constituency while the registered voters will have to provide their EPIC number mentioned on the top of their voter id card. Once they do that, a booth-level officer will visit them at home to fulfil other formalities. After that, it's not long before Voter ID cards are dispatched to their address. Not only has this app also facilitated the PwDs to request for the wheelchair on the poll day.

The Saksham App provides a number of features to help PwDs register to vote, find their polling station, and cast their vote. These features include:

- Voice assistance: The app provides voice assistance for PwDs who are visually impaired.
- Text-to-speech: The app provides text-to-speech for PwDs who are hearing impaired.
- Accessibility features: The app has a number of accessibility features, such as large fonts and high-contrast colours, to make it easier for PwDs to use.
- Information on polling stations: The app provides information on polling stations, including the location of the polling station, the accessibility features available at the polling station, and the contact details of the polling officials.
- Complaints: The app allows PwDs to file complaints about any problems they face while participating in the electoral process.

The Saksham App is a valuable tool for PwDs to participate in the electoral process. The app is easy to use and provides a number of features that make it easier for PwDs to register to vote, find their polling station, and cast their vote.

## **11. Know Your Candidate (KYC):**

The Know Your Candidate (KYC) app is a mobile application developed by the Election Commission of India (ECI) to help citizens know about the criminal antecedents of candidates contesting elections. The app is available on both Android and iOS platforms. To use the KYC app, voters need to select the election type and AC/PC name to view the list of the nomination or they can search the candidate by name. The app will then display information about the candidate's criminal antecedents, if any.

This information includes the details of any criminal cases filed against the candidate, the status of those cases, and the nature of the offenses. The KYC app is a useful tool for citizens to make informed decisions about who to vote for. It can help voters to identify candidates with a history of criminal activity and to avoid voting for them. The app can also help to promote transparency and accountability in elections.

**Features of the KYC app:**

- It allows voters to search for candidates by their names.
- It displays information about the candidate's criminal antecedents, if any.
- It provides information about the status of any criminal cases filed against the candidate.
- It shows the nature of the offenses that the candidate has been accused of.
- It is available on both Android and iOS platforms.

The KYC app is a valuable resource for voters who want to know more about the candidates who are contesting elections. It can help voters to make informed decisions about who to vote for and to promote transparency and accountability in elections. To download the KYC app, you can visit the ECI's website or the Google Play Store, or the Apple App Store.

**12. Voter Turnout:**

This is one of the renowned applications of the Election Commission of India (ECI) which is an in-house developed mobile app to display the approximate voter turnout percentage for each state, district, and constituency. The app is available for download on both the Google Play Store and the Apple App Store. The Voter Turnout App uses real-time data from the ECI's Voter Turnout ENCORE Server to calculate the estimated voter turnout percentages. The app also allows users to filter the data by election type, state, district, and constituency. This application only activates during assembly, parliamentary and bye-election periods.

**Here are some of the features of the Voter Turnout App:**

- Displays the approximate voter turnout percentage for each state, district, and constituency.
- Uses real-time data from the ECI's Voter Turnout ENCORE Server.
- Allows users to filter the data by election type, state, district, and constituency.
- Allows users to share the data on social media.

The Voter Turnout App is a useful tool for voters and media houses to track voter turnout for different elections. It is a quick and easy way to get an estimate of the voter turnout in a particular area.
